Applications that require an English language test

There are 2 types of test as different immigration routes require different levels of English language ability. The test you will need to take depends on what you are applying for.

For the following application routes, you will need to take a test that assesses your reading, writing, speaking and listening abilities:

Health and Care Worker  
High Potential Individual  
Innovator  
Minister of Religion  
Scale-up Worker  
Skilled Worker

For the following application routes, you will need to take a test that assesses your speaking and listening abilities:

citizenship  
International Sports person  
parent  
partner  
Representative of an Overseas Business  
settlement (also known as indefinite leave to remain)

The level of test you will need, known as the Common European Framework of Reference for Languages (CEFR) level, will depend on the route you are applying for. To find out which level you need, see the specific guidance for your immigration route.

08/05/2023, 08:13 - Rob Baptie: #40 What is a BRP?

A BRP is a credit card-sized document that is automatically issued if your spouse/partner visa is approved.

It includes the following information:

- Your name, date and place of birth
- Your fingerprints and a photo of your face (this is your biometric information)
- Your immigration status and any conditions of your stay
- Whether you can access public funds, for example, benefits and health services

You can use a BRP to confirm your:

- Identity
- Right to study or work in the UK
- Right to any public services or benefits you're entitled to

If you travel outside of the UK, it is important to carry your passport and BRP with you as this confirms your entitlement to live in the UK.

If you do not have this document with you, you may be refused entry at the Border.  
08/05/2023, 08:13 - Rob Baptie: Bottom of text means you can travel with this card is the point
